

CARROT TREAT CONE

DIRECTIONS: Print this sheet on white cardstock. Cut out the tag and the carrot. Curve your carrot around itself and adhere along the whole side (so it makes a cone). Fill the carrot with treats. Punch a small hole in the top of your tag, and using craft string or ribbon, tie the tag around your finished carrot. Putting a piece of tape on the back of the carrot to hold your string or ribbon will make it stay in place. You could also print the tag on sticker paper and just stick it to the front of your carrot.
